- Delivers clearer calls and more stable 4G, 5G mobile data indoors

INSTANT SIGNAL BOOST

UP TO +80db GAIN

SUPPORTS UP TO 100 USERS CONNECTIONS

FAST NETWORK & DATA SPEED

### ABOUT

Reliable signal starts at the source, and Signal Hero Ultra 1500 Pro delivers stable mobile connectivity for large homes, offices, and commercial properties. Missed calls, dropped connections, and slow data no longer need to be part of daily life in rural, semi-urban, or low-coverage areas across the UK.

This engineering-grade booster supports all major UK mobile networks, providing reliable 4G voice and data with **advanced 5G coverage** where available. It performs **best where outdoor signal strength ranges between 1-2 bars**. An external antenna captures the available signal, transfers it via professional-grade cabling to the booster, and redistributes the enhanced signal indoors for consistent coverage. With three indoor antenna connections, **Signal Hero Ultra 1500 Pro is suitable for spaces up to approximately 1,500 sqm, making it ideal for large offices, warehouses, multi-room buildings**, and demanding projects. Its strong range and ability to utilise multiple nearby cell masts allow many users to maintain stable service simultaneously.

Installation follows a proven layout used across UK properties. Our UK-based support team assists before and after purchase. **The system includes a 60-day money-back guarantee and a 3-year warranty.**

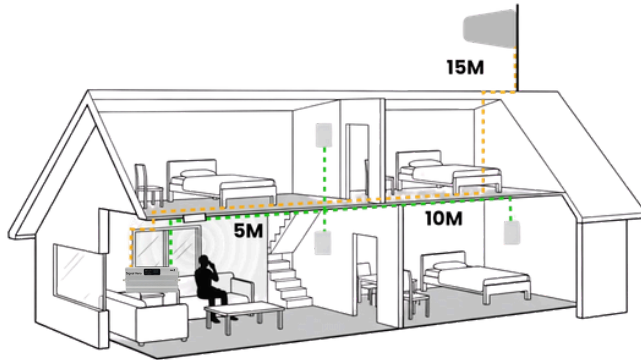

### KIT INCLUDES

### SPECIFICATIONS

MODEL NUMBER	SH20831-1500-Pro
FREQUENCIES	BAND 20, 8, 3 and 1 800 MHz / 900 MHz / 1800 MHz / 2100MHz
MAX GAIN	80 dB ±2
IMPEDANCE	50 Ohm
POWER SUPPLY	AC 100-240V
CONNECTORS	N-FEMALE
BOOSTER DIMENSIONS	48 x 20 x 5.5 cm
BOOSTER WEIGHT	<5Kkg

## INSTALLATION

1

The signal is received from the outdoor cell towers and transmitted through the cable to the booster box.

2

The booster box receives the signal from the outdoor aerial and retransmits it to the indoor antenna via a cable.

3

The panel antenna mounted on the wall receives the signal and retransmits a clean, high-quality phone signal throughout the property.
