ABOUT

Time to fix those mobile signal trouble spots. The Home MultiRoom signal booster is our second most powerful home booster, providing targeted coverage for every user in up to 3 large rooms (up to 300 square metres). Install Home MultiRoom using the installation guide, which includes step-by-step instructions, and access our UK-based customer support for assistance. Immediately after installation, users will notice faster calls and data performance, seamless streaming without buffering, fewer dropped calls, and reliable messaging. Mobile hotspots and video calls will work better, too! Signal Hero Home MultiRoom works with all UK mobile providers and devices. So, no matter how many people are at home or visiting, everyone gets a boost, including for 3G and 4G networks. There are no ongoing fees or subscription costs, and it's supported by a 30-day money-back guarantee and a 2-year warranty.

INSTALLATION

- 1 Receives signal:** The outside antenna reaches out to access the existing strong outdoor cell signal and delivers it into the booster.
- 2 Boost signal:** The booster receives the signal, amplifies it, and serves as a relay between your phone and the nearest cell tower.
- 3 Broadcasts signal:** Your devices get a stronger signal, and calls and data are fed through the booster back to the network.
